WE ARE LOOKING FOR A MOTIVATED PERSON WHO THRIVES ON CHALLENGE AND ENJOYS WORKING IN A TEAM ENVIRONMENT!

General Statement:

Under the general supervision of the Development Services Supervisor, this individual works as a member of a project team developing and maintaining critical web business, applications on system development and maintenance projects of varying complexity for the divisions utilizing a mix of technologies, including Visual Studio 2005 VB.NET or C# business objects, application blocks, ASP.NET user interface, ADO.NET, and SQL Server 2005. The individual must be able to work on a team.

Duties:

- Program and maintain custom critical business web applications
- Work with the Web Architect on technical issues during web development projects
- Provide on-going support for custom web applications
- Provide system web architecture development support
- Work with the Web Architect on web architectures and programming

Desirable Qualifications:

Demonstrated knowledge of OSHPD-standard enterprise technical components and the application of technologies to meet business needs. Technical skills in application development components such as Visual Studio 2005 VB.NET or C# business objects, application blocks, ASP.NET user interface, ADO.NET, and SQL Server 2005. Systems administration skills such as Windows 2003 server, SqlServer 2005, TCP/IP, Team Foundation Server, Sharepoint and IIS 6.0. Knowledge of State and departmental computer, network, and information security policies and procedures; and an understanding of the OSHPD mission and the business processes to meet the needs of individual divisions.

Who May Apply:

Applications will be accepted from individuals currently in the class or who have list, transfer or reinstatement eligibility to the class. Individuals with list appointment should attach a copy of their notice of test results. Appointment is subject to SROA policies. The most qualified individuals will be selected for an interview.
